

## Product Information

## CAUSTIC SODA (PEARLS) (SODIUM HYDROXIDE)

---

Description: White, hygroscopic pearls.

---

### Composition and

Application: Caustic Soda is practically pure NaOH and is used to increase the pH of water base muds.

---

### Specification:

NaOH content	min. 99 %
Na <sub>2</sub> CO <sub>3</sub>	max. 0.4 %
NaCl	max. 0.008 %
Solubility in water @ 20 °C	111 g/l
pH (10% solution in water)	14
Grain size distribution	0.25 – 2 mm

---

Packaging: 25kg synthetic bags

---

### Dangerous goods classification

Class 8, II, UN 1823/ADR

---
